TO WHOM IT MAY CONCERN

I, the undersigned, Jean-Christophe David, President of Association pour la Protection de l'Origine des Cosmétiques Suisses (SWISSCOS), certify that Viocap AG is an active member of our Association.

This allows Viocap AG to use the SWISSCOS logo on all products from their brand, which are manufactured in Switzerland.

HISTORY

SWISSCOS was created in 1994 and is an association recorded with the Register of Companies of Canton de Vaud, Switzerland.

In 2009, SWISSCOS obtains the protection of the logo  with the Swiss Trademark Office.

In 2017, SWISSCOS decides to update the logo of the Association and obtains the protection of

the new logo  with the Swiss Trademark Office.

GUARANTEE OF ORIGIN AND OF QUALITY

When the logo is affixed on cosmetic products, it is a guarantee for the consumer that the products they are buying have been manufactured and packed in Switzerland.

According to the "Swiss Made" Ordinance for Cosmetics adopted by the Swiss Confederation on 1 January 2017, a Swiss indication of source can be used, not only if a minimum of 60 per cent of the manufacturing costs for cosmetics must in future arise in Switzerland, but also if at least 80 per cent of the research, development and production costs.

SWISSCOS has an even more restrictive rule for its members, as the logo can only be affixed on products which have been **entirely** manufactured and packed in Switzerland.

From a legal point of view, the logo is a guarantee of origin. In practice, it is also a guarantee of quality, as only the manufacturers who adhere to the SWISSCOS code of conduct can be accepted as members.

Association pour la Protection de l'Origine
des Cosmétiques Suisses (SWISSCOS)

Jean-Christophe David
President
